**Mighty Midgets Errata**

The following pages replace the original Annex C1 in *Mighty Midgets*, second edition. Due to an unfortunate error, the damage values for guns of 65mm or less are not correct, and are much smaller than the correct values.

Also, the values for the Italian 135/45 An 1938 are missing. They have been added.

If you have any questions about this errata, *Mighty Midgets*, or any Admiralty Trilogy Product, please contact us at [adtrgroup@aol.com](mailto:adtrgroup@aol.com).
